

June 29, 2012

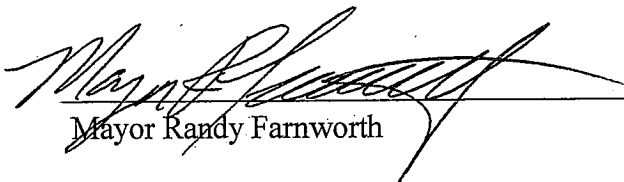

Vineyard Resident –

This letter is to inform you that following discussion with our Town Fire Marshall, Doug Bezzant, we have made the decision **to prohibit fireworks and open fires anywhere in the Town of Vineyard starting June 30, 2012 until further notice.** Should a fire ignite as a result of fireworks or an open fire, the person lighting the fireworks or fire could be found financially liable for any costs associated with fire suppression or damage resulting from the fire.

I am sure you are aware of the extreme fire danger Utah is experiencing at this time. The dry grasses and fields in and around Vineyard could easily ignite and result in tragedy. The Town Council and I look forward to your cooperation in keeping Vineyard safe during these unusual weather conditions.

We wish you all a safe and happy Fourth of July holiday!

Sincerely,

Mayor Randy Farnworth
